Description

MARITIMO S600

The 2022 Maritimo S600 is part of the new offshore series that fuses the latest advancements in nautical technology and design with the iconic features of Maritimo's S-Series models of the past. Australian built, it's sharpened exterior design, extensive entertainment areas, and high performance reset the international standard for long-range cruising motor yachts.

Inspired by the lessons learned to create a class-leading, enduring line of blue water motor yachts for tough Australian conditions, our experienced team of maritime designers and skilled craftspeople have developed a fresh take on how an offshore sedan motor yacht should perform and feel.

As soon as you step aboard the new S600 you will appreciate the Maritimo difference and you will be immediately captivated by its space - easily accommodating your family in style, safety and comfort. A fully enclosed climate-controlled saloon and accommodation space provides the essential comfort needed for long-range cruising and passage making.

The remarkable new offshore cockpit with enclosed transom makes the S600 Offshore ideal for those fishing enthusiasts or any that embrace the encapsulated deck space with solid separation to the sea.
