Description

Mamma Mia. Welcome aboard this true standout of a vessel, sure to turn Venetian heads or those closer to home on our Australia Coastline.

This classic styled timber boat was built in 2019 from a set of naval architect plans, using only the best materials and timber boat building methods. Although based on plans, this craft is 100% custom and is the only one of its kind. You will not see another like it.

Perfect for cruising along waterways with friends or family, with enough space for an onboard picnic. It seats 4 comfortably with a maximum rating for 6 occupants. Or... As an incredibly professional, and well finished tender for your motor/super yacht.

The hull is constructed from Australian manufactured certified marine plywood laminated with 5mm thick strips of solid Fijian Plantation Mahogany. All feature timber is solid silver ash. The boat has been built using the epoxy encapsulation method, meaning that all surfaces are coated with epoxy resin to fully seal all timber work. Thus, reducing ongoing maintenance as the timber will not get waterlogged, eliminating the possibility of rot and swelling. All stainless work and fasteners are 316 marine grade stainless steel. Bespoke stainless steel trim was designed and hand formed specially for this craft. The lower hull is coated with antifoul paint.

The interior of the boat is all custom designed and crafted. Features include:

- Solid mahogany and silver ash floor decking
- Custom windscreen designed and crafted from laminated safety glass with stainless steel trim
- Custom hand formed stainless dash with digital gauges
- German made aviation switches for outboard tilt, bilge pump, and 12-volt accessory power
- All upholstery has been custom designed and crafted specifically for this vessel using marine vinyl

Other notable features:

- 90 HP Yamaha Outboard.
- Dunbier single axle trailer, with brakes and a spare tire, in excellent condition
- Stainless steel 60lt under seat fuel tank with deck fill
- Automatic bilge pump with secondary bilge pump switched from dash
- Marine battery isolation switch
- Anchor locker in bow with sand anchor
- Bow deck lifting eye
